KMC-38GPS

GPS Speaker Microphone

The KMC-38GPS heavy duty speaker microphone adds FleetSync™ GPS tracking capabilities to the Kenwood TK-2180/3180 portable radios.

Now, 180 series portables can be tracked just like mobiles using KGS-3 FleetSync™ AVL software or any aftermarket FleetSync™ capable applications.

Users such as Military, Police, Fire, EMS, Search & Rescue, Conservation, Forestry, Wildlife Management and those engaged in Lone Worker Safety will all benefit in the ability and the increase of safety of now tracking people.

FEATURES

- Radio displays Latitude, Longitude & Altitude in LCD (programmed feature key).
- GPS data can be sent with PTT automatically, manually or dispatch polled.
- Supports FleetSync™ GPS AVL for PTT ID, Emergency and Status Message Block.
- Operates on LTR, Conventional and Five Tone mode.
- Compatible with TK-2180/3180 series portables (Sn 805 & above).
- Compatible with Kenwood KGS-3 & aftermarket FleetSync™ AVL software applications.
- Programmable with radio software (requires KPG-89D V1.40 or later).
- Noise Canceling, 3.5mm Earphone jack, Rotary Clip.
- Internal Li-Ion GPS Memory Backup Rechargeable Battery Cell.
- MIL-STD C/D/E/F including MIL-STD "Driven Rain" & IP54/55 Water & Dust Intrusion.
- CSA Intrinsically Safe version certification approved for use in hazardous locations.

Note: Portable battery life is affected, KMC-38GPS must have an unobstructed view of GPS satellites.

The KMC-38GPS is NOT compatible with versions of the TK-2180/3180 portable radios prior to Sn 805XXXXX.
